

## 2020 Profile

# Global Institutional Profiles Project

# Aristotle University of Thessaloniki

Thank you for  
your continued  
participation and  
support of the  
global Institutional  
Profiles project!

## Introduction

The global Institutional Profiles project creates accurate and comprehensive profiles of research institutions around the world.

With reliable and objective data on each institution, users of the data in these profiles and elsewhere are better equipped to:

- validate and quantify executive and strategic decisions
- support marketing, publicity and other promotional efforts
- supplement rankings and other assessment initiatives with additional indicators of excellence

By working closely with a multitude of personnel from universities and other related institutions around the world, we have been able to create the richest, clearest profiles to date—portraits of facts and figures on research activity, funding, students, and staff, supported by verifiable indicators from Clarivate™.

## About the Report

This Profile supplements the Institutional Profiles data available in *InCites™* and is provided to organizations contributing to the Institutional Profiles project. It is based on data from three main sources: data provided by the institution directly to Clarivate data on the institution's publications and citations from Web of Science™; and the results of the annual Academic Reputation Survey.

For more information please see:

<https://clarivate.com/webofsciencegroup/globalprofilesproject/>

Clarivate has conducted extensive validation of the data and applied powerful analytical techniques to interpret and present the data in a meaningful way.

This Profile and all data included herein may be used as a promotional and/or marketing device, as a management tool to be shared internally with colleagues for purposes of evaluation, or to provide institutional research executives with information on research performance. The information in this report may be used to assist students or faculty in the selection of your institution. You may use this report in the following ways:

- Post it on your institution's website (see below)
- Share with administrators at other institutions
- Submit with research assessments or government and funding proposals

## Brief Description

Aristotle University of Thessaloniki (AUTH) was founded in 1925 as the second Greek University and today it is the biggest in the country. It comprises 11 Faculties organized into 41 Schools. Operates 41 bachelor degree and 68 master degree programmes in individual Faculties and Schools, as well as interdisciplinary, inter-university and international. Furthermore it has 23 collaborations with foreign universities for co-supervised PhD, for Greek and foreign doctoral candidates. 62.000 undergraduate and 10.000 postgraduate and PhD students (3.937 are foreign) are registered at AUTH. The Teaching and Research Staff are more than 2.000 and the total support staff around 1000 people. AUTH participates actively in International Meetings (IAU, EUA, COIMBRA, EMUNI, AUFFrancophonie, European University of Beijing, TIME etc), as well as in 35 International Associations, Organizations and Networks and 5 International Student Associations. In the framework of European Educational Programmes, AUTH is the leading Greek University in mobility, with around 600 active bilateral agreements for students and faculty exchange and 105 Agreements for Scientific Cooperation with equivalent Universities or Higher Institutions from all over the world. AUTH participates in 48 Research Networks and implements more than 2000 national, European and international research projects per year.

## InCites™ Institutional Profiles Indicators

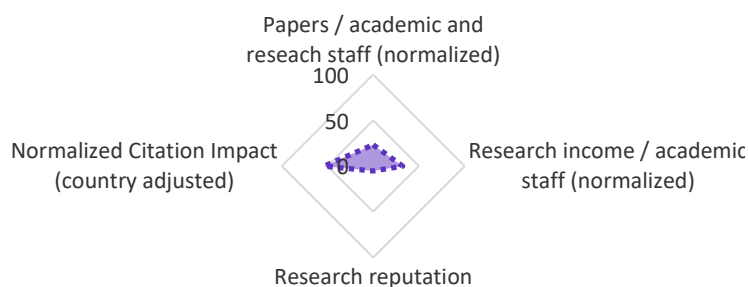

### Teaching Indicators

Academic staff / students	22
Doctoral degrees awarded / undergraduate degrees awarded	34
Doctoral degrees awarded / academic staff (normalized)	37
Teaching reputation	7
Institutional income / academic staff	19

### Research Indicators

Papers / academic and research staff (normalized)	23
Research income / academic staff (normalized)	32
Research reputation	5
Normalized Citation Impact (country adjusted)	54

### Industry Indicators

Research income from industry / academic staff	37
--	----

### International Outlook Indicators

Academic staff - international / academic staff	20
Students - international / students	22
Papers - international co-author / papers	73

Note: Values and scale on tables and diagrams are cumulative probability scores, representing your institution's place compared to other institutions. Dotted line on the diagram represents a cumulative probability of 50 i.e. the median value. Maximum value is 100.

## Summary

We hope you find this report informative and look forward to many years of collaboration to improve our multidimensional approach to institution profiling, data validation, and qualitative assessment. For over half a century, Clarivate has pioneered the world of citation indexing and analysis. All of our analytics tools and services are underpinned by the gold standard citation data in the Web of Science. We are therefore uniquely positioned to help you and your institution make informed decisions about current and future research and organizational strategies. We look forward to continuing our partnership with you and welcome any feedback you may have.

The data presented in this report represent just a fraction of what you can obtain when you subscribe to *InCites*, the web-based evaluation tool. The *InCites* platform enables you to access data alongside both article-level and aggregated data and metrics to assess the impact and influence of people, departments, institutions, regions, and publications within the broader research ecosystem.

*InCites* allows you to objectively and accurately assess the return on your research investments and activities. Starting with a foundation of trusted *Web of Science* data, you can create visually impactful reports to help:

- **develop** a clear picture of the research activity at your organization - an indicator of future success,
- **measure and benchmark** the research performance of your people, programs and peers to properly allocate funding and attract new talent and
- **facilitate** collaborations that advance your strategic goals and support internal review, reporting and promotional processes.

## About the Web of Science

The Web of Science, part of Clarivate, organizes the world's research information to enable academia, corporations, publishers and governments to accelerate the pace of research. It is the world's largest publisher-neutral citation index and research intelligence platform. Its many well-known brands also include Converis, EndNote, Kopernio, Publons, ScholarOne and the Institute for Scientific Information. For more information, please visit <https://clarivate.com/webofsciencegroup/>.
